CHATHAM (Mass.), May 21st. — The schooners Luther Eldridge and Emulator, while dragging for anchors lost in last winter's ice embargo, recently discovered off Chatham what appeared to be a large iron chest, popularly supposed to be full of treasure and lost in a foreign frigate wrecked here years ago. Failing to raise the chest with grappling irons, the captains of the schooners have engaged professional divers, with whose aid they are now trying to secure it. Objects resembling cannon are plainly discernible on the sea bottom around the chest.

ON THE RACK. resham's Enemies Digging Up His Rec ord of Thirty Years Ago. Copyright, 1888, by the California Associated Press.

Washington, May 21st.—Enemies of Judge Gresham, who are opposing his candidacy for the Republican nomination for President or Vice-President at Chicago next month, have unearthed a document from the files of the New Albany (Indiana) Weekly Ledger that they think will prejudice the German vote particularly, and the naturalized citizens' vote generally, against him. The Ledger of August 18, 1866, contains the following:

"Walter Q. Gresham, present candidate for Representative in Harrison county, said in a speech at Londen's School-house, in Spencer township, in 1856, when he was a

pencer township, in 1855, when he was a candidate for Clerk against William V. McMahone, in a joint discussion with John
Martes, that the American (or Know-Nothing) party did not have to persuade him to
become a member of their Order, for he
always had an American's heart; that he
was brought up in the town of Louisville where was brought up in the town of Louis-ville, where Americans could hardly get to the polls to vote because of the lazy, lousy, filthy, lop-eared, greasy Dutch: that he was in favor of stepping immigration from the old countries to ours; that they were prisoners and paupers; that the jails, prisons and almshouses in the old countries had been emptied and their inmates brought here."

had been emptied and their inmates brought here."

This publication is vouched for by seventeen citizens, who declare that they heard Gresham use this language. As the statement was made eleven years after the alleged occurrence took place, it may not materially influence Gresham's chance.

Washington, May 21st .- A very important caucus of Republican Senators was erson, from the Committee on Military held this afternoon. After a long discussion, it was decided to hold open sessions for the discussion of the fisheries treaty. This treaty will be made one of the issues of the campaign, as an illustration of the un-American policy of the Administration. Many of the older Senators feared that discuss the treaty in open session would be the beginning of an open discussion of all executive business, but the majority felt

that, as it was previously agreed to kill the treaty, the reasons for this action should be given to the public, The caucus also decided to make the suppression of the negro vote at the South one of the campaign issues, and the investigation now in progress by the Judiciary Committee of the Senate into the manner in which the municipal election in Jack-son, Miss., was conducted last fall, will give the Republicans a chance to animad vert again upon the political methods em-ployed at the South. These side issues will be secondary to the main issue—the

SCHOOL LANDS.

Decisions by the Interior Department of WASHINGTON, May 21st .- Acting Secretary Muldrow to-day decided, in the case of Thomas O'Donald, Jr., vs. the State of the decision of the Commissioner of the General Land Office, that the State of California is not entitled to select as indemnity lands, purchasable under the timber-andstone Act of June 3, 1878, in lieu of school lands deficient in fractional townships. Also, that in case of deficiencies in school lands, the State has the right to select as indemnity two sections to a township, or a fractional township containing more than three-quarters of an entire township, in-

stead of one section, as claimed by the appellant in the case. In the case of Barclay and McLead vs. the State of California, the Acting Secre-tary has decided that if the State, in making its application for indemnity for losses sustained in school sections, alleges in part a fictitious or erroneous basis for its selec

tion of indemnity, the entire basis must be rejected.

Both decisions sustain the Commissioner of the General Land Office, and are re-

continental to the Front. Copyright, 1888, by the California Associated Press. NEW YORK, May 21st .- The first open evidence of the purpose of the friends of Henry Villard to put him once more at the head of the Oregon Transcontinental Rail-way was given to-day in a letter from Vil-lard to the stockholders, appealing for their proxies for use at the approaching election. In this he pointed out that last summer he was enabled, by the confidence of German friends, to give financial aid to the company to the extent of \$5,000,000, and that he was then requested by the largest stockholders to become its President again, which request he reused, because some corporation that the Oregon and Transcontinental was interested in needed aid. But the aid having now been given those corporations, Villard says that, as the founder of the company, and from a sense of duty, he feels bound to aid in securing more satisfactory results for the stockholders by infusing new life into

THE WOOL QUESTION.

Copyright, 1888, by the California Associated Press. Union Station (Or.), May 21st.—Hon. John F. Swift addressed a large audience in Wright's Hall this evening. All day long large numbers of people from the country had been coming to town to hear the distinguished visitor from California. Hon. Robert Eakin introduced Mr. Swift to the people of Union county in highly complimentary terms. Mr. Swift was warmly received, and after his address many pressed around to offer congratula-tions. Colonel Irish is well liked here in a literary point of view, but he has made no votes for his party. He dwelt at length on the wool question. AT/ANTED-BY AN ELDERLY MAN AND The dispatches now announce that the un favorable to the slaves than we had looked for. All slaves are declared free, and the masters are to receive no compensation for Hotel. them. But in all cases where slaves are working upon coffee plantations, they are that they are supported meanwhile, and that they shall not be imprisoned, as heretofore, for slight offenses. At the end of three years they are to be absolutely free.

There is no other instance in the world's history of such vast emancipation, with so little friction, as in the achievement of Brazil. It has cost the Empire a great deal of treasure, but no blood, no wars, no serious political involvments, no social revolution. Dom Pedro, who has for forty years and more labored for that he now sees accomplished, is deathly ill and away from his people, and will very likely the noble end which has influenced his entire reign has been attained. A great deal of credit is due to his daughter, the Princess Isabel. She has been as ardent an abolitionist as her father, and has labored side by side with him in the cause of freedom. She is now Regent, and must presently come to the throne. When she does, she will fill it with ability. having already proved her entire capacity for the high office. She is a woman of brain, foresight, courage and caution. Under her rule, with the stain of human bondage forever wiped out, the immediate future of Brazil will prove to be of great-• st promise and importance.

The general knowledge of the nation and its people, its arts and its industries appears to be much limited, but hereafter, unless we greatly mistake the indications, Brazil will be one of the best known nations of the new world, first in its influence upon only to that of the United States upon the two greater Americas. In territory it is as large as the United States, if we exclude Alaska; it is peopled by the descendants of an industrious and spirited people; it has nearly 15,000,000 of inhabitants; it produces nearly everything luxuriantly common to semi-tropical regions; it is rich | BELL & CO......AUCTIONEERS in minerals and precious stones, and vastly so in woods; and it has many large navigable rivers. It is not, and never will be griculturally the equal of the United States, as its soil on the whole is not so fertile, though it is blessed with a milder climate; but it produces many things that can be grown only indifferently, or not at all, in the United States -- as rubber, coftee, mandioca, etc. The foreign commerce of the country now exceeds \$200,000,000 a year, and is more than half in value of all the foreign commerce of the whole continent. Brazil looks to the United States for most of her machinery; research has not yet given her domestic coal; her roads are poor and few, and her resources not half developed; she is heavily in debt, and her territorial area cripples economic government; in the Argentine Republic she has a powerful competitor as a grainproducer and industrial rival; but all these obstacles will be overcome in the new era tions must become closer than now; at present Europe supplants us in the attention received, but the natural relations of the Americas, the output of American trade, the good standing American manufactures now have in the empire, and the spirit of progress in Brazil, forbid that such shall continue to be the rule.

THE Democratic party is engaged just now in resolving in enthusiastic Conventions that it has demonstrated its capacity to well administer the affairs of the nation. Wherein has it shown it? In the advance made in civil service reform ?—half and State Prison Supplies. more of the party pronounces against it, and the other half makes but a pretense of observance of the civil service regulations.
In maintaining the dignity of the republic abroad?—where has the Government sucabroad?—where has the Government succeeded in doing so in any case in which a strong European power has opposed us? In giving us a navy?—what figure would the United States cut in a naval contest with France, Italy or Russia to-day? In paying the public debt?—the Administration had to be driven to application of the surplus to that purpose. In fostering internal improvement?—what has been done towards restoring the navigability of our injured rivers? In excluding offensive immigration?—the treaty with China was a farce until amended by a Republican Senate.

Bouldanger says that the war scare in England is ridiculous. For once the General is correct in his expressed judgment. We do not believe that any cause exists for fear of England being involved in a serrous European war or being invaded by any other State. She may have more trouble than is generally anticipated in Egypt in her efforts to regain the Soudan, and that she intends to do it is undeniable. On the 9th day of last January the first subdivision of the Palermo Colony, called Subdivision No. 1, and consisting of about 1,800 acres of land, was put upon the market. The sales the C. M. B. Association for the lecture and entertainment lately given for their benefit. While the Sisters fully appreciate the efforts of all the members to make it a success, they feel that a special notice is due to the local Representative, MR. JAMES REILLY, for the modest but efficient manner in which he carried out the arrangements. The net proceeds amounted to \$75 to \$250 per acre, being regulated entirely by \$75 to \$250 per acre, being regulated entirely by the distance from the depot.

Merchant and Still a Fruit Grower. A most attractive feature of the Palermo Colony is the splendid system adopted by the Palermo Land Water Company for planting and caring for the groves and orchards of non-residents at actual cost, thus enabling those who cannot well give up their business or occupations to still engage in the profitable enterprise of fruit-growing. While a number of most desirable settlers have located at Palermo and are caring for their own little farms, the company, under the supervision of the Horticultural Superintendent, H. H. Hunting, has done a vast deal of work for purchasers living outside of the State, many of whom will build handsome residences on their tracts and spend a greater portion of the year among their beautiful groves of oranges and other truits. oranges and other fruits.

\$30,000 SPENT IN CULTIVATION. During the season just passed, within which trees could be planted—since the formation of the Palermo Colony—nearly 25,000 trees (mostly orange trees three or four years old of the finest varieties) have been set out, in addition to which the Palermo Nursery and citrus Association has 30,000 more in its nursery to meet the demand for next season. Orders were given for dwible this amount of work, but owing to the lateness of the season it was deemed inadvis able to attempt to do any more planting. Seven and one-fifth miles of picket fences were built, twenty-four miles of main and distributing ditch were dug, enlarged and cleaned. The system of irrigating through ditches is, however, only temporary and was adopted to meet the present demands. By next season the Company contemplates having pipe lines laid throughout the colony and townsite, and great reservoirs will furnish abundant water for every purpose. Eight and one-half miles of street grading has been done, and a ter the winter rains this work will be resumed until throughout the colony the avenues and roadways will surpass those of Goiden Gate Park. This work has given steady employment to 257 men.

IMPROVEMENTS. During the season just passed, within which

IMPROVEMENTS.

Quite a number of good substantial buildings have been erected at Palermo, and but for the scarcity of lumber (something never before known in this splendid lumber district), others would have been built. A Planing Mill, which will employ from thirty to forty men, is in course of construction, and a large Hotel will be built by the Company and ready for occupancy the coming Fall. It is intended to make this Hotel the finest in Northern California, creating at Palermo unprecedented attractions to visitors, tourists and seekers after health in this great sanitarium. SUBDIVISION NO. 2.

Subdivision No. 2, lying along the railroad and immediately adjoining the town site of Palermo, is as pretty a piece of perfectly level land as can be found in California to-day. It may truly be called the Cream of the Palermo Colony. It shares every advantage that Subdivision No. 1 possesses, and its value, present and feture, is established beyond peradventure. It comes as an offering to the public when this enterprise is no longer an experiment. Purchasers will have the assurance that no future subdivision can compete with it since this is the only public sale that will ever be made of Palermo property. The inducements to at once accept the opportunity are unparalleled in the history of real estate transactions.

It will be the last Subdivision offered with Free Water. TOWN LOTS.

The town of Palermo must of necessity be a place of considerable importance. Its situation in the midst of a district yet in its infancy of fruit culture, though destined to become a great and growing one, and possessing splendid railroad facilities, with the almost certain prospect of being on a new overland route through the Brekwith Pass, makes an investment there a safe and profitable one. The lots, which are perfectly level, are all 50 feet front and have a depth of 150 feet, except those fronting on Railroad avenue, which vary from 117 to 180 feet. By-Lots in Alternate Blocks Only will be

THE TERMS OF SALE Will be very liberal and will apply to both town lots and colony tracts, viz: ONE-THIRD CASH; balance in one and two years, with interest at 7 per cent per annum. Water for irrigation will furnished free of charge for three years, and creatier at such rates as are fixed by the uty Beard of supervisors Purchasers of the xt subdivision of the Palermo Colony will y for water from the time they commence to it.

\$43,500 IN DWELLINGS

GIVEN AWAY. 350 Lots, \$475 Each. Seand \$15 INSTALLMENTS. TO OR DISCOUNT FOR CASH.

OWING TO THE SUCCESS OF SALES IN OAK PARK,

Since April 2d, the Company have resolved to place in an association 350 Choice Lots, and offer \$43,500 in Premiums, In the following manner: They propose to BUILD THIRTY-FIVE DWELLING HOUSES, GRADE THE AVANUES, PLANT OUT TREES, AND BEAUTIFY THE GROUNDS in

\$5,000 One Dwelling costing. One Dwelling costing One Dwelling costing...... \$3,000 One Dwelling costing .. .\$1,200 One Dwelling costing \$2,000 | One Dwelling costing. .\$1.100 \$1,500 | 27 Dwellings costing \$1,000 each.. \$27,000 One Dwelling costing One Dwelling costing81,400

The lots in this association will be sold at \$475 each; \$25 cash, balance in payments of \$15 per month. No interest will be charged until \$175 has been paid, when 5 per cent. per annum will be added. Each purchaser to receive a certificate of purchase. After the full amount has been paid the prize dwellings will be awarded.

It is a well-known fact that people like to get value received with interest. In this association of 350 you get high interest. If you don't succeed in getting a house on your lot (35 chances in your favor, or one chance in ten) you will have a piece of ground worth more than the price paid. No offer of the kind has ever been made that will give the value to be had in this one. The property has merits that cannot be equaled. It is no scheme on paper, but a plain business proposition. The tract of land from which we offer you lots is beautifully situated at the southeastern boundary of Sacramento; is high ground, admitting of excellent drainage; commands a fine view of the country about Sacramento. The soil is highly productive and easily cultivated. The company have planted large numbers of trees, such as the palm, magnolia, cypress, pine and orange. An immense amount of money has been spent in grading and laying out avenues, constructing enlyerts for drainage. The work still goes on and will continue until Oak Park is the garden spot of our State. The Central Street Railway Company are laying their track, and by July 1st Oak Park will be proceed with the Southern Pacific Passenger Depot. Elegant cars propelled by electricity will be frequently run over the road, giving residents of the Park the same advantage as residents of activities. the city.

The fact that Sacramento City is fast filling up and her lots being so rapidly built upon made it necessary to place an addition that would be of real worth to seekers of homes, and in this land all that is needed can be found. To own a lot in Oak Park Addition to Sacramento is to own property in the second commercial city of California. Surrounded by the richest agricultural and normicultural portion of the earth. Right in the center of the greatest fruit-shipping country in the world. Its climate all that could be desired by the most exacting.

Sacramento is daily increasing in population and inside of ten years the thirty thousand people will have swelled to seventy thousand. Think of these brief truths and prepare to spend May Day in getting a Certificate of Purchase in this Association of \$7-May First.

OAK PARK Lots not in this association of 350 can also be had for graded prices at private sale of ONE-THIRD DOWN; BALANCE IN MONTHLY INSTALLMENTS, with interest at

Msp and full information to be had at the Association's office.

Teams will convey intending purchasers to the Park. Everybody is invited to visit the property, particularly our business men. EDWIN K. ALSIP & CO., Agents, 1015 Fourth Street Sacramento, Cal.

THE BEAUTIFUL PIONEER COLONY OF BUTTE CO., CAL THERMALITO WAS SURVEYED INTO TOWN LOTS, 50X150, AND 90X 160 feet, and in 1, 2, 5 and 10 acre lots, in June, 1887. Of these lots, 946 were offered for sale direct at \$160 per acre. Terms of sale, one-third cash, one third in one year, and balence in two years at 8 per cent per annum. Over one-half of these lots have been sold to bona fide purchasers, who have person ally examined the land, soil, location, and water-power and supply, on all of which THERMALITO CHALLENGES COMPARISON.

THE ASSOCIATION OF OFFERS THE FINEST CHANCE FOR A SURE INVESTMENT IN THE STATE. These 500 Lots were set aside from the 1,440, to be improved with the purchase money paid for them, and to be distributed in the following manner: 500 purchasers buy the whole of the lots at \$360 apiece, paying \$30 in cash and \$15 per month, until \$150 is paid on each lots. WITH THIS MONEY A TO

is 104 feet wide, 1.8 feet long, and has an extreme elevation of 80 feet. Standing on a binff 80 feet above Feather river, with Marysville Buttes in plain view, its situation is at once grand and impressive. Next, a \$5,000 BRICK STORE AND HALL is being built. Also, One \$2,500 Cottage, one \$2,000 Cottage, two \$1,500 Cottages, two \$1,000 Cottages, four \$875 Cottages, and \$1,900 worth of Ornamental Trees Planted. Also, the streets adjoining the lots are being graded, and water is now piped, and being brought in pipes to each lot under a PRESSURE of from 100 to 150 FEET, to be used FREE FOR THREE YEARS, and at allow rate of Ten Cents per miner's inch for twenty-four hours flow.

These improvements being made, the 500 owners of the land and improvements will come together and draw for choice of selection of lots among themselves; the FIRST CHOICE taking the HOTEL, or whatever he or she desires, and so on until each owner or holder of a certificate entitling him to a lot has made a selection. After the selections are made a deed will be given upon the payment of the balance of the \$5360, either in cash or installments of \$15 per month. THE 500 LOTS ARE AS FOLLOWS:

.....5-ACRE LOTS.5-ACRE LOTS.2-ACRE LOTS.1-ACRE LOTS.90x160 LOTS.50x150 LOTS. ONE HUNDRED. THE ASSOCIATION SHARES are being rapidly sold, improvements are going on, and selection of lots will be made as soon as the last is sold. THERMALITO ADVERTISES NOTHING that is not to be seen on the tract. It has now FIFTY acres of Orange Trees from two to ten years old. By JUNE 1, 1888, there will be planted in the colony between 250 and 300 acres of CITRUS FRUITS. The healthy location, magnificent view, fine water supply are vouched for. Soil from ten to twenty feet deep, covered with large oaks or cleared to suit numbers.

Gabriel Haines, who was for nearly twenty years a Justice of the Peace in this city, died yesterday morning at the residence of Constable Frank Swift, where he has lived for many years. Deceased was born in Germany in 1814, emigrated to America in 1836 and located in Wiscon-sin. He came to California in 1851 and for nine years conducted business for himself. At the election in 1861 Mr. Haines was elected Justice of the Peace for Sacramento City and held the office for two years. He was elected again in 1866 and served until 1870. In 1872 he was again elected to the same office and held it al-

most continuously from that time up to Ex-Justice Haines often presided in the Police Court during the temporary ab-sence of Judges who have occupied the position of Police Judge, and when that Court opened yesterday morning, Justice C. N. Pest feelingly alluded to his death, and paid a tribute to his worth. Remarks were also made by ex-Police Judge W. A. Henry, ex-City Attornev Hart, City Attorney Church and Judge Buckley, and when the Court adjourned it did so out of respect for the memory of the deceased.

Deceased was a member of Washington Lodge, No. 20; Sacramento Chapter, No. 3 and Sacramento Council, No. 1, F. and A. M. His funeral will take place from his late residence, 620 M street, at 2 o'clock this afternoon, under the direction of Washington

Another Will Contest. The matter of the contest of the will of F. Appel was on trial before a jury in Judge Van Fleet's Court yesterday, A. P. Catlin appearing for the contestants and Grove L. Johnson for the parties named in the will. Appel lived for many years in the vicinity of the County Hospital, and when he died left a will bequeathing his estate—worth about \$7,000—to Chris. Weisel, George Kuchler, A. Flohr and others. Appel did not recognize his relatives in the will, and his two sisters, residents of St. Louis, contested the documen claiming that it was made while their brother was acting under undue influence and not of sound and disposing mind.

AFTER THE DODGERS. The following ordinance was read and aid over under the rule : ORDINANCE NO.

OBDINANCE NO.

Deeming it necessary for the protection of life and property in the prevention of runaway teams and for the better protection of health and cleanliness, the Board of Trustees of the city of Sacramento do ordain as follows:
Section 1. It shall be unlawful for any persons to throw, empty or deposit in or on the streets, alleys or sidewalks of the city of Sacramento any loose paper, dodgers, or rubbish of any kind.

Section 2. This ordinance shall go into effect immediately after its passage.

EXTENSION OF THE FIRE LIMITS. R. Davis, J. Gresel, H. Goepel, C. Nielsen, J. M. Nielsen, W. J. Milgate, Mrs. B. C. SACRAMENTO, May 21, 18838.

Hon. Eugene J. Gregory, Mayor—DEAR : IR:
Your favor of the 18th inst., relative to the removal of the line of telegraph poles on the out-side of the east levee, reached me on Saturday. In order to explain the matter of this com-In order to explain the matter of this company's poles having been placed on the levee, without first being referred to the Board of Trustees, I have to say that the levee in question appears on the map as part of the existing railroad system of the State, and, under the impression that it was nothing more than an ordinary railroad fill, the employes of this company erected the poles on the east side thereof, in order to avoid close proximity to the existing line of telegraph on the west side of the levee. The line I have last named has been in its present position about seventeen years.

It has been proven beyond any doubt that poles inside of the levees are free from any objectionable features, as from two to three lines of poles have stood on the inside slope of the north levee for the past twenty-five years, and one line of poles on the east levee for seventeen years.

holes, and respectfully ask that our company may be granted the right to place our line in side of the levee, under the direction and in spection of your honorable Board. Very respectfully,

the right to place its poles inside the levee. Trustee Ryan said he was in favor of the Supreme Court.

Mr. Ryan said from what he could learn here would be a shortage of four to five housand dollars. The Fire Commissioners would then come in and say: "We are out of money. We can't run the machine Court's decision, and action was deferred. After auditing a large number of bills he Board adjourned.

by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by JOS. No Hope for Maxwell.

St. Louis (Mo.), May 21st.—The Missouri Supreme Court to-day received the mandate of the United States Supreme Court in the case of Hugh M. Brooks, alias Maxwell. Maxwell was much effected when informed that the State Court would in a few days dispose of the case forever. The general mpression is that there is no hope for the chloroformer. An Explanation. What is this "nervous trouble" with Mexican which so many seem now to be afflicted? G. & C.
If you will remember, a few years ago the
word "malaria" was comparatively un-

known; to day it is as common as any word in the English language; yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our andfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver, which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel, is compelled to pass it off through aria, bilious fever, etc. You who are suffering can well appreciate a care. Peaches are plenty as far as I can learn, ut apricots are rather below an average. The Moorpark bloomed in time to be caught by a late frost. After the first frost ew blooms came out and a few apricots was the result, but most of them I must award the prize to the Routier or New Peach apricot again this year for productiveness. It is a constant pearer, and there is no better for drying and for general purposes. The fruit is not so sweet as the Moorpark, and it is not so juicy, which makes it a better shipper.
We have several varieties of apricots in this section that we do not know any name for. I will try and describe three of them, and if any one can give us any light on the subject, we would be thankful. It has been told me that the buds came from W. Smith's orchard near Vacaville. The first variety ripens next after the Pringle. The tree looks very much like the Routier, only it is more of an upright grower, very vigorous; leaf, same shape and a shade lighter green; bears young and constantly; fruit resembles the Routier in shape could be the state of th in shape, only about two-thirds as large, with a blush on the side exposed to the sun; free at the pit; flesh, a shade lighter. It is

THE FRUIT CROP IN YOLO.

Prospects of a Fair Crop-New Varieties

of Apricots-The Grape Crop.

The Woodland Mail publishes the follow-

ing notes from J. R. Springer, of that city,

concerning the fruit crop of Yolo county:

the first variety that comes in of any consequence among us. I regard it to be good for drying, and canners took it last year with others and did not demur. There is one thing against it-its lack of sweetness that the Moorpark and Royal have.

Another variety is a vigorous and up right grower, will grow very thick in the top, if allowed to: leaf round (2½ inches in diameter), very dark green; fruit ripens the same as the Routier, and is onethird larger than any Royal I ever saw; blush on side exposed to sun; if not ex-posed a cream-colored flesh the same

The last two varieties described ripen the same time but do not bear young. They do not amount to much before they are five years old, but after that bear regularly as far as we know. Trees over that age have done so with us. Prunes, so far as I can ascertain, are a good crop, and one gentleman told me he sold his last year's crop for 10 cents per pound, and has been offered the same for

The grape looks exceedingly well, there having been no late frosts to interfere, and the warm weather we have had has caused the vine to do its best by way of foliage and bloom. Taken altogether, the prospects for this year's harvest are good, equal to, if not above, the average.
